ABOUT ME

A passionate UI developer with background in software engineer and human computer interface design. Specializes in transferring a creative idea from sketch to high quality code. An ambitious problem solver with a keen interest in technology and UX.

EXPERIENCE

Web Developer @ Supplyhouse.com

Aug 2016 - Present

- Developed fully functional and responsive websites for e-commerce, using HTML5, CSS3, Bootstrap, jQuery, Java, JavaScript and FreeMarker
- Designed prototypes based on business requirements and then translated prototypes/designs into clean, valid, and launch-ready pages with reusable UI components
- Created code/design guidelines by interacting with graphic designer, marketers and SEs
- Tested front-end code in multiple browsers to ensure cross-browser compatibility
- Managed small websites in GoDaddy with Php, MySql and WordPress

Front End Developer @ Yumso

May 2016 - Present

- Maintained, developed and designed our startup platform connecting chefs and eaters
- Executed and contributed to full-stack web development projects, with an emphasis on front end features, browser manipulation, and cross-browser compatibility
- Collaborated with a virtual and cross-functional team (agile development methodology)

IT Consulting Assistant (internship), @ PwC

Mar 2015 - Jun 2015

- Analyzed finance system migration requirements by working closely with clients
- Developed and tested IT system specifications, as well as managed project documents

Project Assistant (internship), @ SAP

May 2014 - Oct 2014

- Cooperated with global IT architects to redesign and SAP ERP systems for clients

Sales Operation and Channel Assistant (internship), @ NetApp

Sep 2013 - Jan 2014

- Supervised and analyzed orders by cooperating with Sales and Channel Managers

PROJECTS

Front End Developer

Sep 2015 - Dec 2015

Software Engineering Project, @Clients: MERID Research Group

- Produced a web for online investigations by using jade, node.js, jQuery and JavaScript
- Designed interactive prototypes to for clients following SE Development Methodologies
- Conducted feasibility study and user experience study to test website's usability

iOS Developer

Feb 2016 - May 2016

FitCat iOS App Development Project, @Clients: Cornell Feline Health Center

- Developed a mobile app from sketch to an functional ready iOS app for cats health
- Designed UI with Sketch 3 and developed with Swift, Xcode, and Firebase
