jQuery      D3.js

### TEST TECHNOLOGIES

Mocha      WebDriverIO

CucumberJs      Jest

VSTS      Enzyme

Jenkins      Docker

### WORK EXPERIENCE

Frontend Engineer @ Jet.com

Jan 2017 - Present

- Leading a 5-people group to re-build order history flow with react/redux stacks, while planning, scoping and improving team's work at each sprint with agile methods
- Architected flexible analytics library to help analytics team track customer behavior
- Being feature owner of guest checkout, search suggestion/filters, and promotions, etc. (FE stacks: jade/stylus/express, testing stacks: cucumber/mocha/webdriverIO)
- Collaborating with Product Designers, Product Managers, Marketing Analytics, and API Engineers to deliver features
- Led a cross-function team won all prizes at Jet Innovation Time (hackathon), which ended up a new business at Jet
- Developed whole FE holiday load test with c# independently and cooperated with BE, DevOps and other upstream teams to scale up jet.com to meet 3 times of business goal
- Experienced on FE page duty, accessibility, cross browser compatibility, SEO, web performance optimization

Web Developer @ Supplyhouse.com

Aug 2016 - Present

- Developed fully functional and responsive websites for e-commerce, using HTML5, CSS3, Bootstrap, jQuery, Java, JavaScript and FreeMarker
- Created code/design guidelines by interacting with graphic designer, marketers and software engineers, solving design/coding inconsistent problem and improving usability
- Designed prototypes based on business requirements and then translated prototypes/designs into clean, valid, and launch-ready pages with reusable UI components
- Tested front-end code in multiple browsers to ensure cross-browser compatibility
- Managed small websites in GoDaddy with Php, MySQL and WordPress

Front End Developer @ Yurnso

May 2016 - May 2017

- Maintained, developed and designed our startup platform connecting chefs and eaters with AngularJS, D3.js, and Sass, etc.
- Executed and contributed to full-stack web development projects, with an emphasis on front end features, browser manipulation, and cross-browser compatibility
- Collaborated with a virtual and cross-functional team (agile development methodology)

IT Consulting Assistant (internship), @ PwC

Mar 2015 - Jun 2015

- Analyzed finance system migration requirements by working closely with clients
- Developed and tested IT system specifications, as well as managed project documents
